

MAZDA CX-5

UNLEASH YOUR POTENTIAL

Overseas model shown

Designed to express beauty in motion. Engineered to stimulate the senses.

As the first Mazda model to realize both Kodo: Soul of Motion Design and Skyactiv Technology, the Mazda CX-5 fulfills its evolutionary journey by once again raising the standards in craftsmanship, power, and safety.

Now with a new Skyactiv-G 2.5-liter Turbocharged engine to motivate you behind the wheel, anything is possible.

EVOLVED BEAUTY

To breathe life into the car. This is what Kodo is all about.

Our design language reflects the refined simplicity of Japanese culture through meticulous attention to fine details.

Crafted with passionate precision and achieving timelessness while being infused with powerful vitality, the Mazda CX-5 evolves into an even more irresistible work of art.

A FUSION OF
FUNCTION AND DESIRABILITY

The emotive design of the Mazda CX-5 highlights your zest for life.

Sculpted with passion and reverberating with soul and emotion, it achieves its design potential with a refined solid stance and a new sophisticated mien.

Now more composed and courageous than ever, the Mazda CX-5 lets you achieve your ambitions.

FULFILLMENT IS IN THE DETAILS

Unparalleled comfort in every drive. This is the essence of the Mazda CX-5's living space.

Adopting learnings from our studies of human balance while in motion, the Human-Centric details such as seats that support the spine's S-shape, controls that feel responsive to the touch, and an environment devoid of clutter and distractions are just some of the ways the Mazda CX-5 lessens fatigue in each journey.

HEIGHTENED CRAFTSMANSHIP

A cabin that realizes heightened refinement is what sets the Mazda CX-5 apart.

Deep Red Nappa Leather adorns its plush, molded seats. While soft-to-the-touch surfaces and real wood accents create a relaxing ambience that soothes the senses.

YOUR DRIVING SOUNDTRACK

Music is a personal experience. That is why Mazda designed an acoustic environment that faithfully replicates the true sound of every instrument.

The 10-speaker BOSE® Premium Sound System in the Mazda CX-5 transforms every journey into auditory celebration.

Enjoy every drive with the feeling of oneness with each musical note.

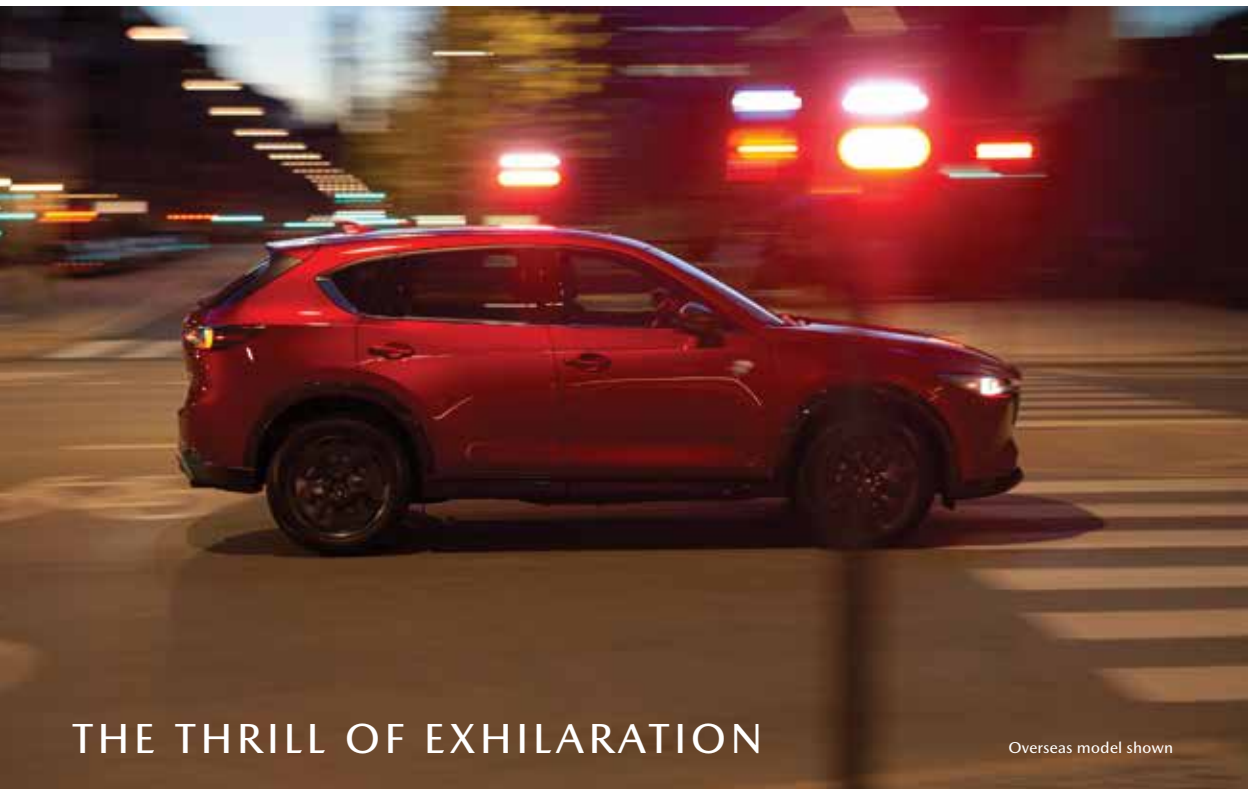

THE POWER OF EFFICIENCY

The goal of Skyactiv Technology is to maximize the potential of every system. To harmonize the delivery of performance.

Now with the much awaited Skyactiv-G 2.5-liter Turbocharged gasoline engine, the Mazda CX-5 realizes its full potential as a dynamic and unrivaled premium crossover.

Complemented by the proven 2.0 and 2.5-liter naturally-aspirated Skyactiv-G engines in the model range, there is now a Mazda CX-5 that caters to your discerning expectations.

THE THRILL OF EXHILARATION

Overseas model shown

The power of a V6 engine with the fuel efficiency of a 4-cylinder. The 2.5-liter Skyactiv-G Turbocharged engine that now motivates the Mazda CX-5 lets you cruise with confidence and accelerate with ease.

Unrelenting power at your prodding combined with the satisfaction of an instantaneous release of energy. This is what joy behind the wheel is all about.

FULL-ON SAFETY AS STANDARD

Mazda i-Activsense is an extensive set of always-on safety systems using milliwave radars and cameras. Working harmoniously to scan the roads ahead, beside, and even behind the vehicle, i-Activsense systems allow drivers to recognize potential hazards and help reduce the occurrence and severity of accidents on and off the road.

Overseas model shown

PROACTIVE SAFETY ESSENTIALS

Blind Spot Monitoring (BSM)

By detecting vehicles where the driver has least access to peripheral vision, the system reduces the occurrence of collisions when changing lanes.

BSM warns the driver through lamps on the side mirrors, chimes, and a visual alert on the Mazda Active Driving Display of an impending collision even before a change of lane maneuver is initiated.

Lane Departure Warning with Lane-Keep Assist

With cameras mounted on the windshield, the Mazda CX-5 can detect if it is veering off its lane and promptly warns the driver to apply corrective steering.

Combined with Lane-Keep Assist, the Mazda CX-5 can actually nudge the vehicle back into its lane should the need arise.

Smart City Brake Support and Smart Brake Support

Most collisions happen at slow, urban speeds. Smart City Brake Support assists the driver by braking the vehicle to a full stop at low speeds (from 4kph to 30kph) when it senses an impending collision. The system is also active during slow maneuvers such as parking.

Smart Brake Support performs a similar role at mid to high speeds (between 15kph to 145kph). It primes the brakes for maximum stopping power once it detects a potential collision.

If the driver does not take evasive action such as braking or steering, the system automatically brakes the vehicle to a stop.

Driver Attention Alert

Concentration while driving is key to safety. When the system detects a marked difference in the way the car moves and behaves at speeds above 65kph during a long journey, either because of fatigue or inattentiveness, a chime and warning display is presented to the driver, suggesting a rest stop may be in order.

Overseas model shown

CONVENIENCE WITH EVERY DRIVE

Making the driving experience as intuitive and enjoyable as possible is paramount to achieving satisfaction behind the wheel.

The Mazda CX-5 makes use of cutting-edge technology to create a safe and user-friendly driving experience.

G-Vectoring Control Plus (GVC+)

The system makes use of engine management and brake control to reduce unwanted lateral movements and maintain your body's balance throughout the drive.

By helping reduce steering inputs and corrections as much as possible, GVC+ helps lessen fatigue wherever the journey may be.

360° View Camera

Situational awareness helps reduce the occurrence of accidents while driving. With high-resolution cameras positioned at the sides and either ends of the Mazda CX-5, you can see a complete view of the vehicle's immediate surroundings. This gives you the information you need to make the right calls and judgments behind the wheel.

Wireless Apple CarPlay and Wireless Mobile Phone Charging

Enjoy each and every drive connected to the essential functionalities of your mobile device, minus the cables.

With wireless Apple CarPlay and charging, you can now rest your mobile phone down, confident that it will deliver the information and entertainment you need through the Mazda Connect System.

Yet another example of the Mazda CX-5 making driving more fulfilling each and every time.

5 YEARS FREE SERVICE PLAN

Worry-free ownership is the hallmark of the Mazda driving experience. We believe that ease of ownership is key to a long and lasting relationship with your Mazda.

That is why every brand-new Mazda vehicle includes FREE parts and labor for every scheduled Preventive Maintenance Service for five years, or up to 100,000km odometer distance, whichever comes first. If you happen to need assistance, you may avail of emergency towing and minor roadside repair support*, which comes with your brand-new Mazda. These unique benefits further enhance your Mazda's three-year, or 100,000km, New Vehicle Limited Warranty, Bumper-to-Bumper coverage.**

With over 16 full-service dealerships across the country ready to attend to your vehicle's needs, you can celebrate the joy and freedom of driving that only a Mazda can deliver.

Owning a Mazda is more than just driving with confidence and reassurance. A hassle-free ownership experience is the fulfillment of Mazda's promise to be your reliable partner in life's amazing journeys.

#1 in 2016 and 2019 according to the J.D. Power Philippines Customer Service Index (CSI) StudySM
