

MAZDA BT-50

BRINGING PASSION AND ADVENTURE TO THE FOREFRONT OF LIVING

Refinement at its best.

The foundation of the KODO design philosophy infuses soulful elegance into a beloved workhorse, creating a distinction between what it means to live and let live – a reminder that life should be lived with passion and treated as a beautiful adventure.

By incorporating new design elements, the 2025 Mazda BT-50 embodies a prouder, more refined character, with a bold stature that embraces premium ruggedness and functional style, making it the ideal partner for every kind of journey.

The story begins right at the heart, with the Mazda logo proudly sitting atop the grille, front and center.

The Mazda BT-50 features a fresh, modern look, with new hexagon inserts on the front grille, framed by the Black Metallic Signature Wing and Front Skid Plate, establishing its rugged and confident personality.

The sporty, outdoor appeal of the BT-50 is complemented by the refined elegance of the new LED Headlamp Cluster that incorporates distinct LED Daytime Running Lamps.

This is further supplemented by the redesigned front bumper with an integrated Air Curtain that improves aerodynamic efficiency, and new LED Fog Lamp housings with functional air vents.

The overall aesthetic is balanced by exciting and dynamic Aluminum Alloy wheel options, in either 17-inches finished in Black Metallic, or 18-inches featuring a two-tone, Diamond Cut finish.

Following through with the seamless, elegant profile, the BT-50's rugged character finishes strong with a powerful rear-end that is fitted with new LED Brake Lamps with Emergency Stop Signal, framing a ridged tailgate with the same prominent Mazda logo, as seen on the front grille.

THE PERFECT PARTNER FOR LIFE'S MANY MOMENTS

The right partner is one that is reliable and ready for anything that life throws at you. Tried and tested, and put through some of the most grueling conditions, while keeping cool and collected at every turn.

The Mazda BT-50 is built with the highest standards and underpinned by the most capable platform, allowing you to do more and be more.

Never short on performance, the BT-50 is powered by a 3.0-liter DOHC Turbo Diesel engine that delivers 190 PS at 3,600 rpm and a robust 450 Nm of torque.

The BT-50 also features superior fuel economy, with the highest performance level under a wide range of driving terrain.

As the most reliable workhorse, the BT-50 is built from high-tensile steel – a rigid, yet lightweight framework. It can handle a payload up to 1-ton and tow up to 3,500-kilograms.

New to the BT-50 and exclusive to the 4x4 Pangolin variant is Rough Terrain Mode. This feature works together with the Shift-on-the-Fly 4x4 system and the Electronic Rear Differential Lock for exceptional traction on the most unexpected road conditions.

ELEVATING THE HEART OF EVERY ADVENTURE

Exceptional craftsmanship at its core.

The Mazda lifestyle is defined from the inside out – the carefully thought-out design, choice of premium materials, elegant details, and an in-cabin experience unlike any other.

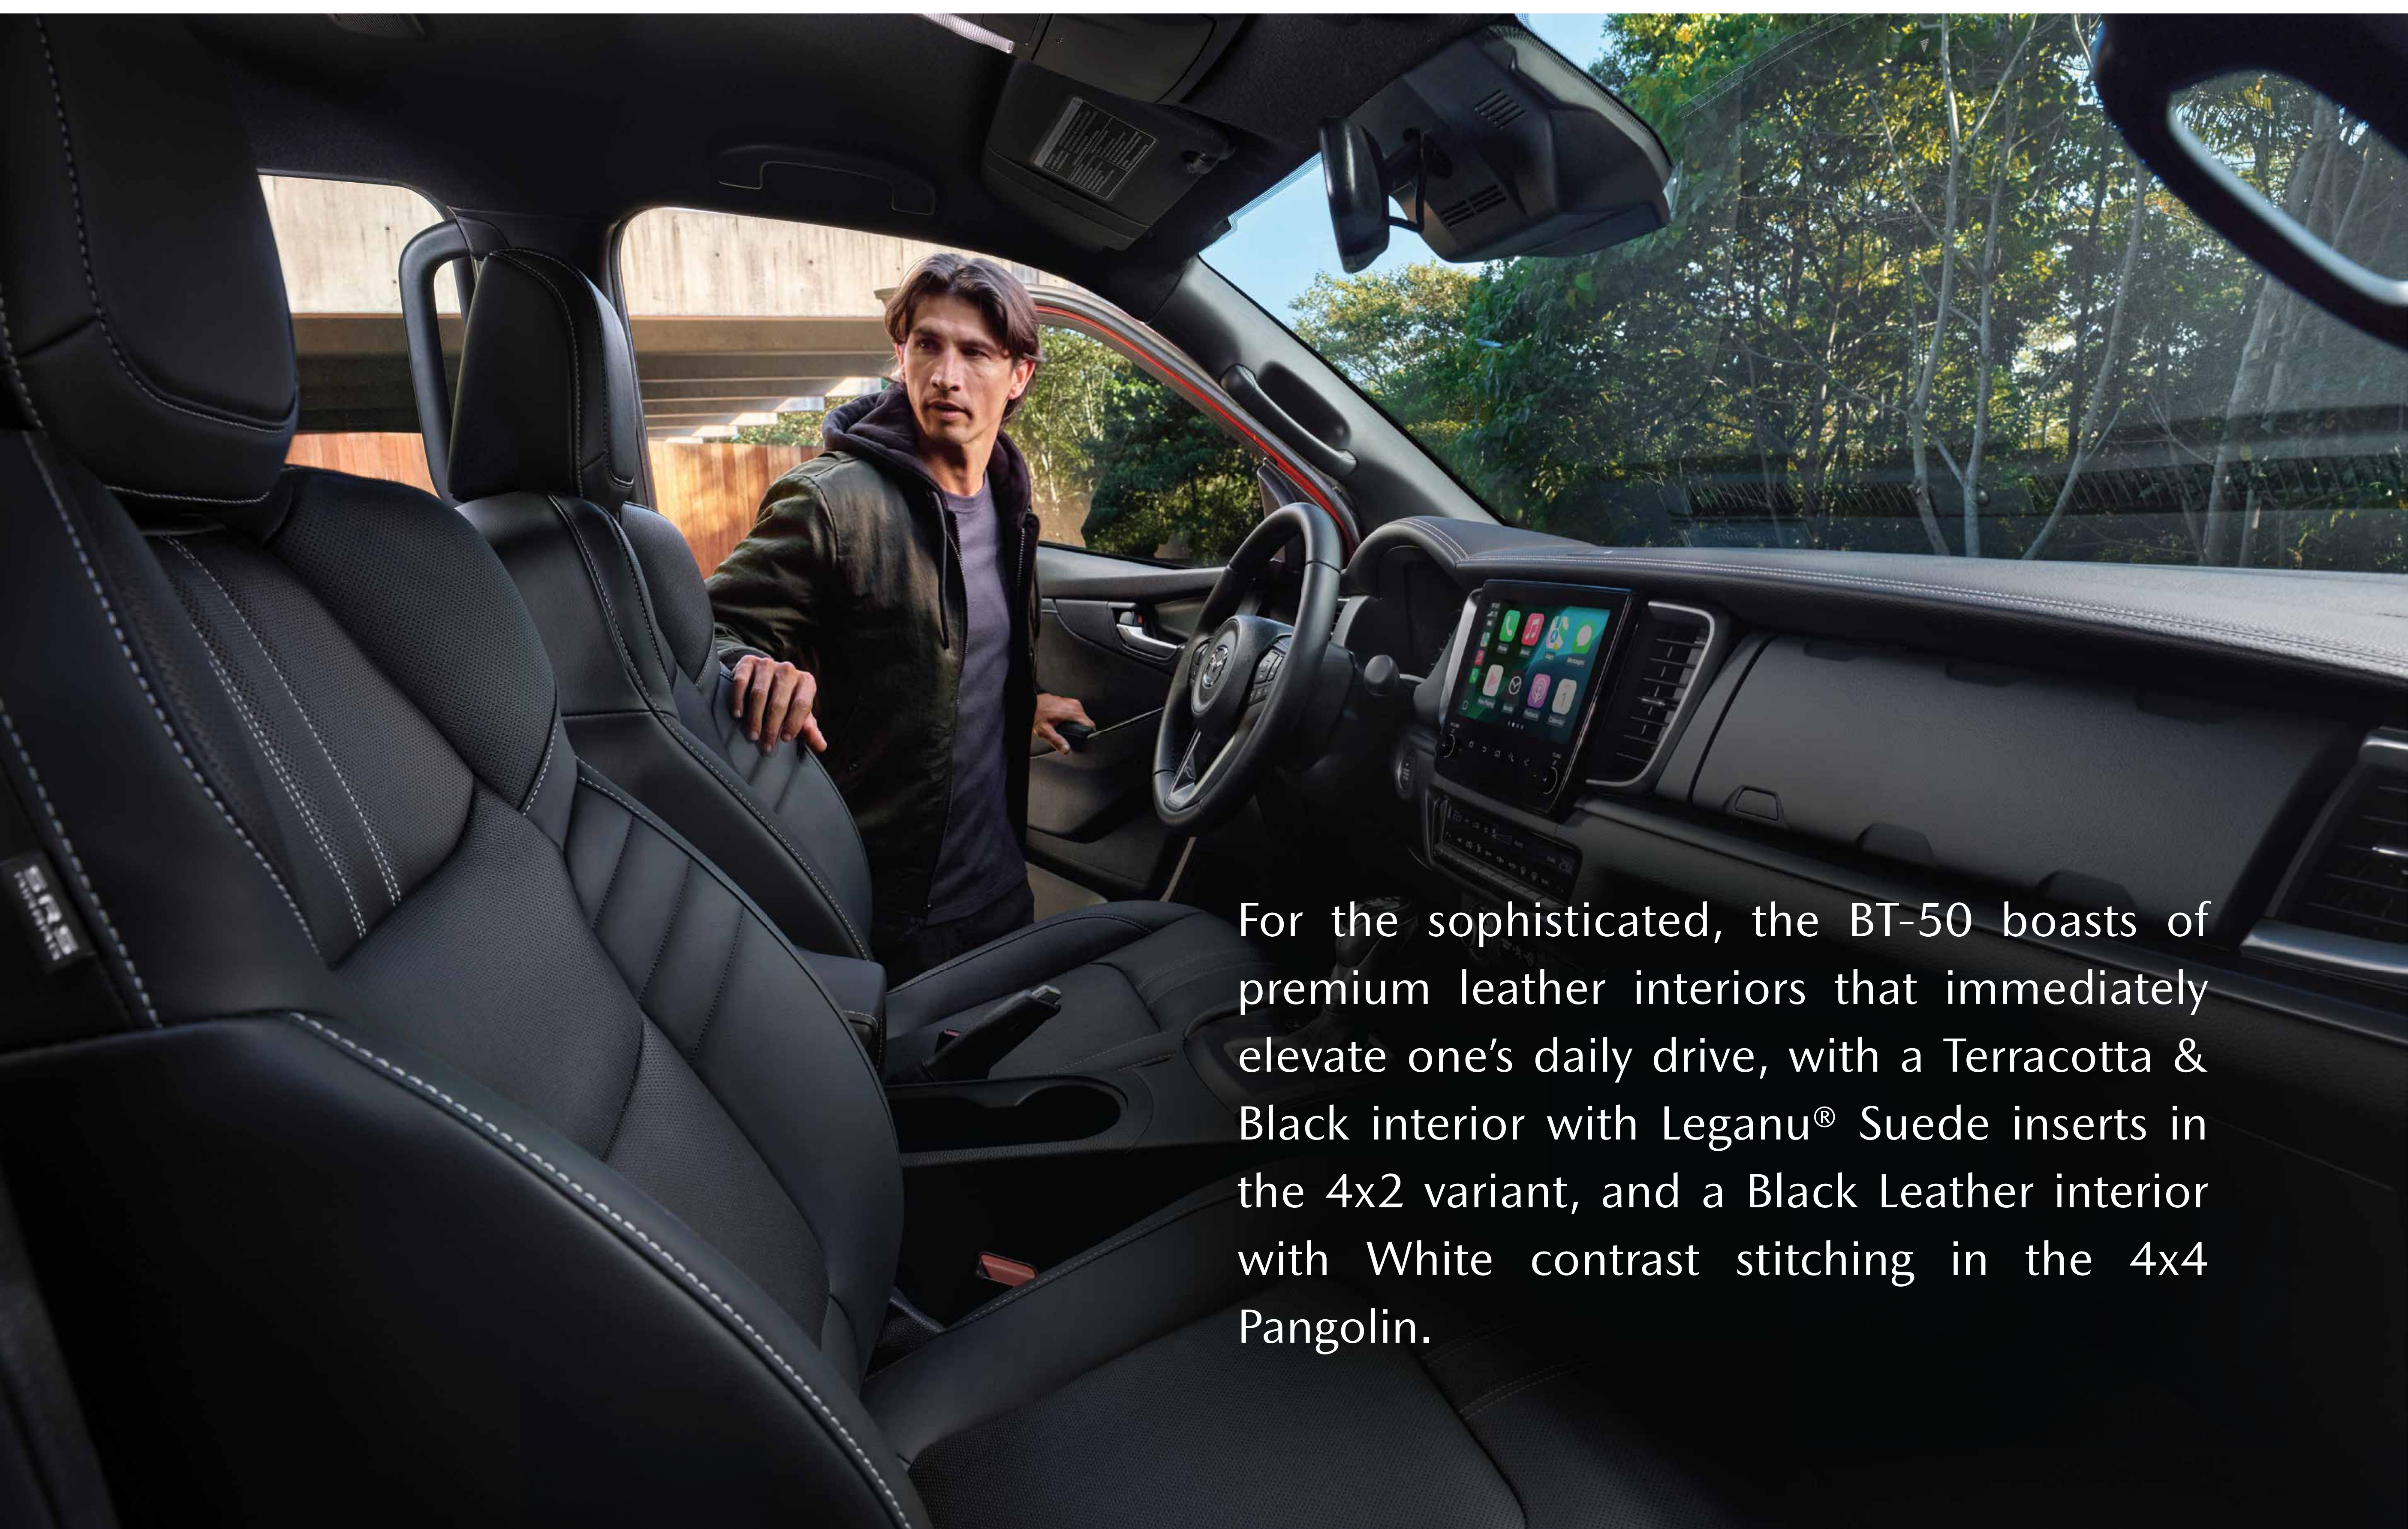

Living out life's greatest passions begins when we connect with the world around us in a way that elevates our journey. The Mazda BT-50 was designed with a depth of grace and humanity, fitted with features that are selected to complement modern lifestyles.

The Mazda BT-50 combines up-to-the-minute technology with driver comfort and convenience.

The new 7-inch Digital Instrument Cluster features a clean, minimalist design that is customizable to display the full suite of user information for 4x4 driving modes, ADAS functions, and more, with a no-fuss, easy-to-use interface.

With the human aspect firmly in mind, the new infotainment system, known as the Human Machine Interface (HMI), measures up to 9-inches, with a full-color touchscreen LCD and improved ergonomics and functionality with capacitive touch buttons and physical volume and tuning control knobs.

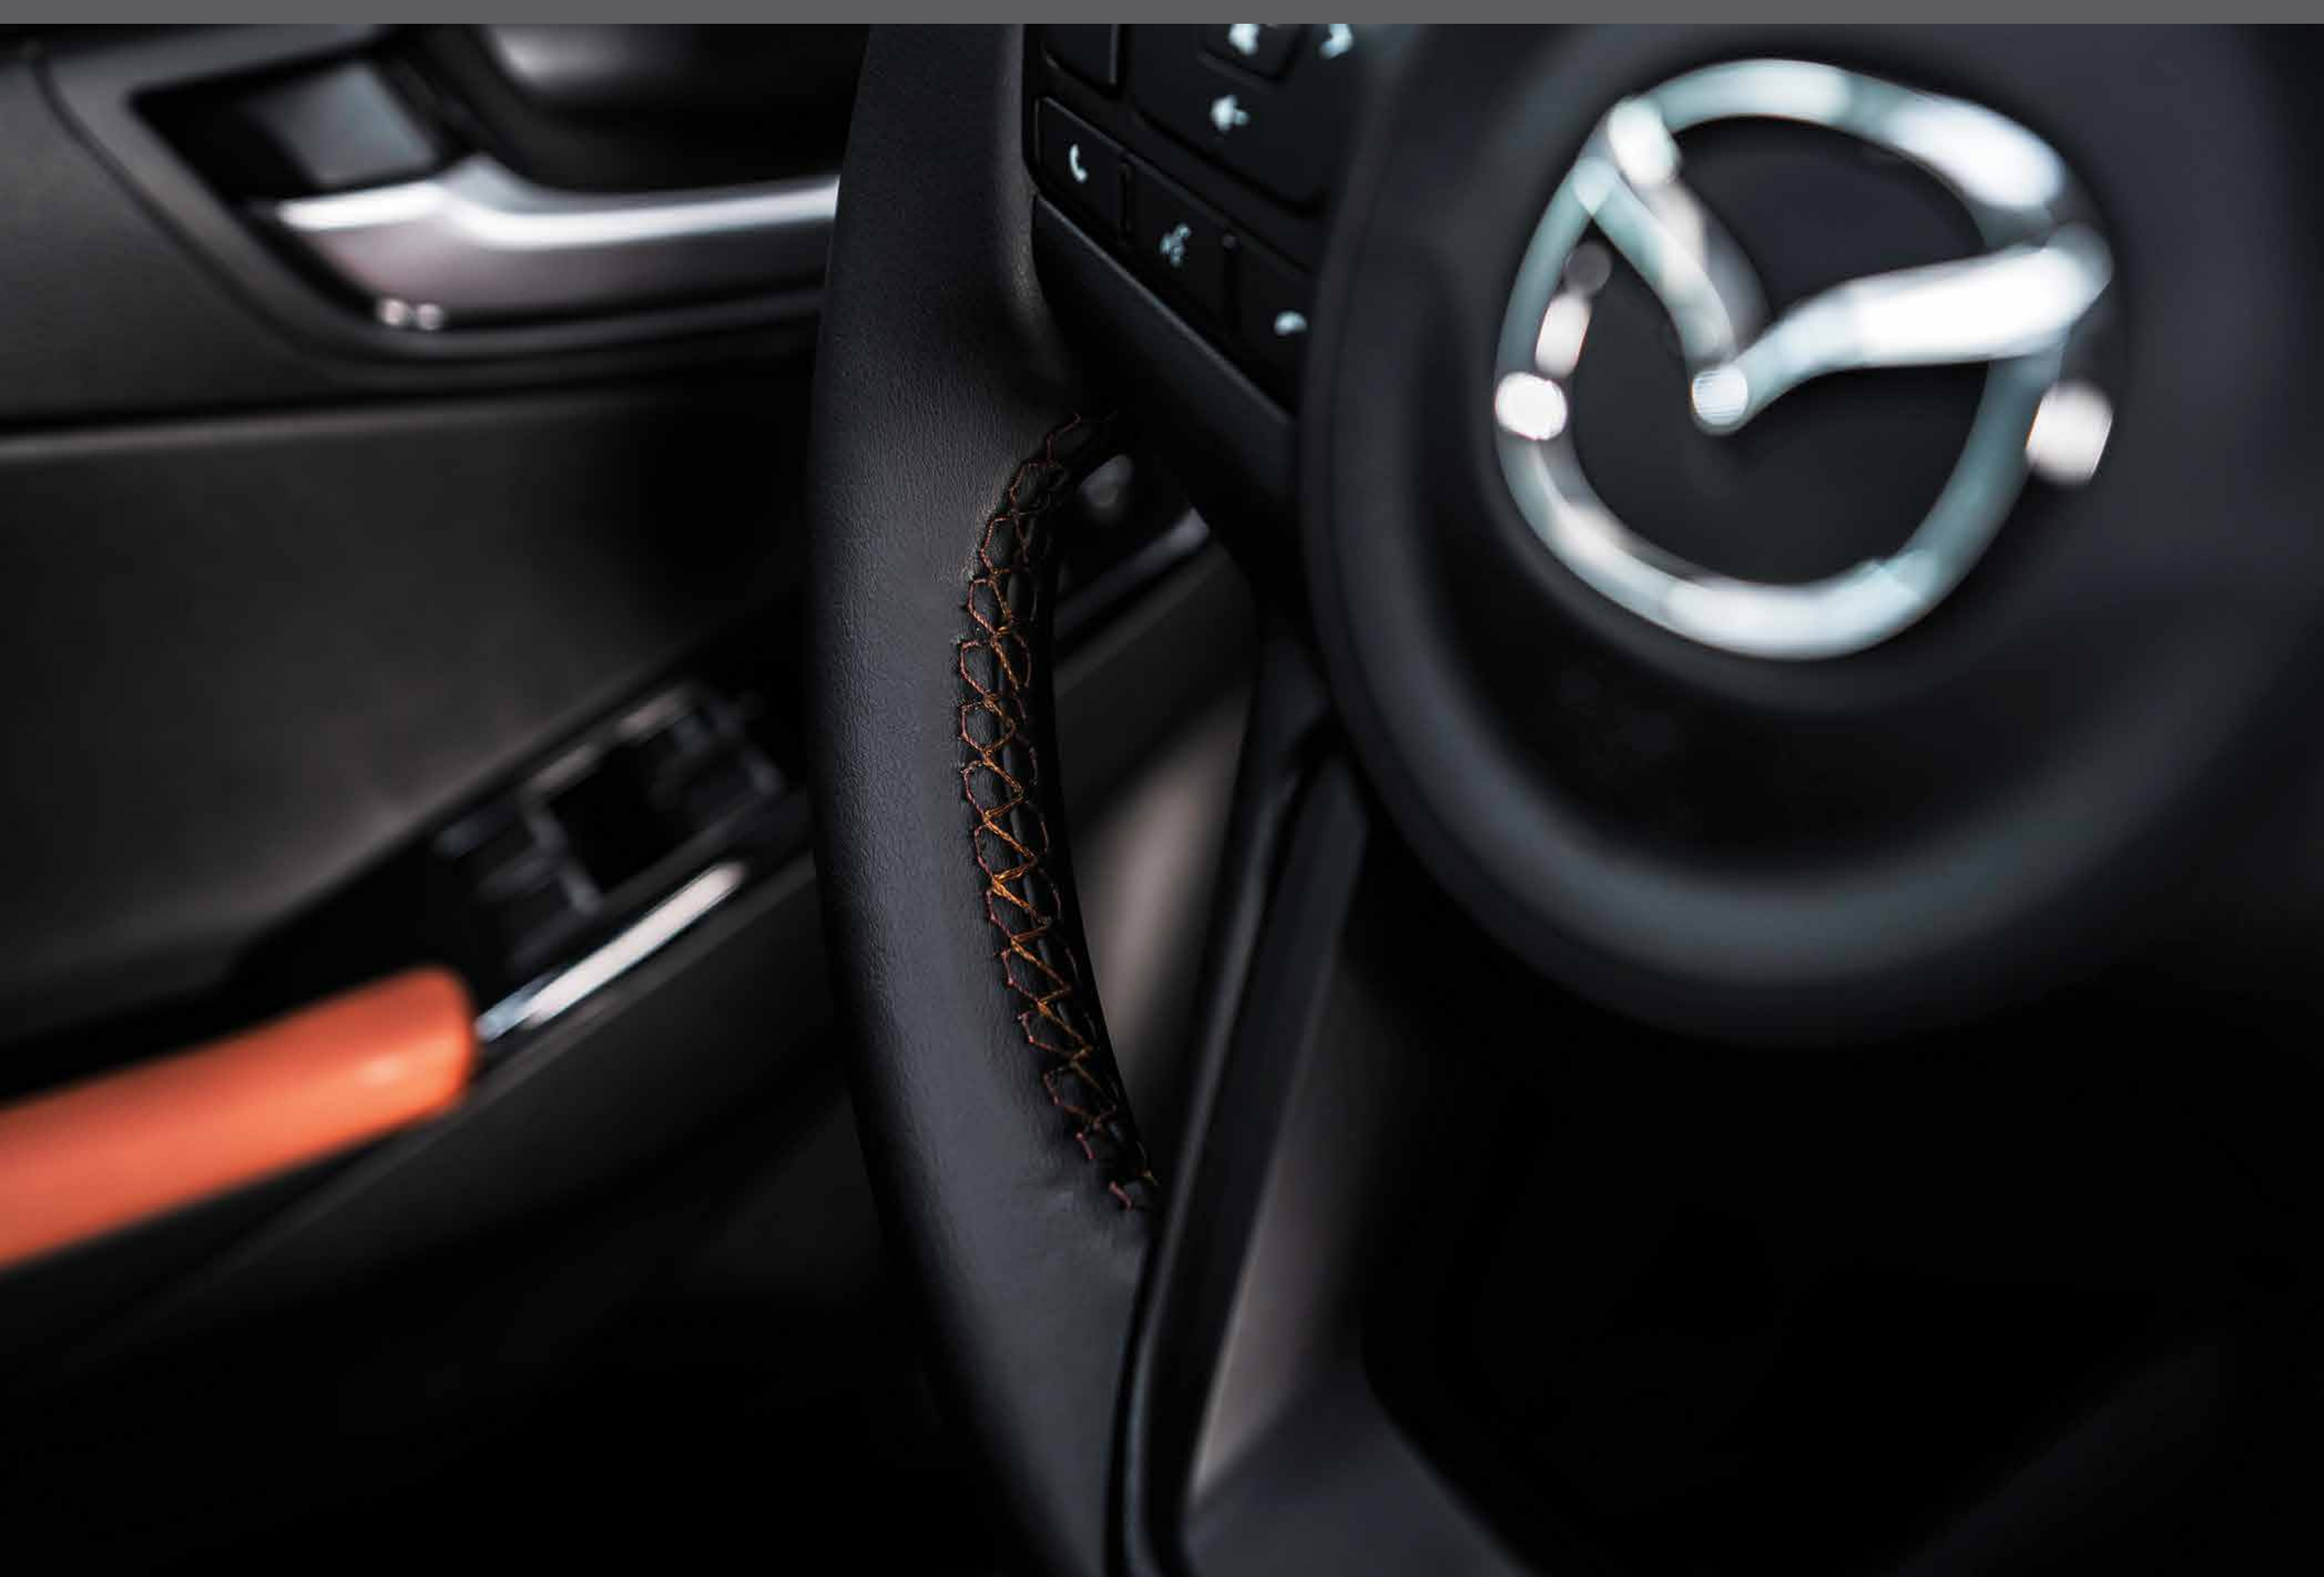

Standard connectivity features include wireless Apple CarPlay, Android Auto, and the new 360° View Monitor with built-in digital video recording that functions as an onboard dash camera for an extra layer of security on your journeys.

For the sophisticated, the BT-50 boasts of premium leather interiors that immediately elevate one's daily drive, with a Terracotta & Black interior with Leganu® Suede inserts in the 4x2 variant, and a Black Leather interior with White contrast stitching in the 4x4 Pangolin.

Ignite one's passion with the dynamic Terracotta & Black colorway of the BT-50 4x2 variant's premium cabin, intertwining the creative spirit with an urban personality.

Crafted exclusively for the Philippines, the bespoke interior features Leganu® Suede inserts for rich texture, Terracotta stitching on the black leather steering wheel and center armrest, and Terracotta leather on the door armrests to match.

INSPIRING THE SPIRIT OF ADVENTURE

Adventure is fueled by passion and attitude.

Mazda prides itself in having both – the ability to inspire greatness and the capacity to support the drive in reaching for that next summit.

The BT-50 ignites the spirit and thrill of travel and exploration by providing the right combination of tools that will make every journey one for the books.

The new Mazda BT-50 features exciting new elements that make both in-city and on-trail adventures smooth and well-supported.

Fitted as standard on every BT-50 is a Front Skid Plate that amps up the rugged styling of the truck, while protecting the underside from offroad abrasions. Extending the durable nature to the interior are new All-Weather Deep Dish Floor Mats that are specially branded with the BT-50 logo.

For cargo hauling, the new Tailgate Assist feature makes opening and closing the tailgate effortless, making it convenient and easy to load and unload items from the rear.

Exclusivity has its perks, and Mazda knows how to make the top tier look and feel exceptional.

In addition to the standard equipment, the top-of-the-line 4x4 Pangolin enjoys features that are exclusive to the variant, enhancing the aesthetic elegance that raises the BT-50 a notch above the rest.

Complementing the streamlined, rugged body are gloss black details that add a touch of brilliance to its monochrome base. Framing the rear bed is a new Fashion Bar with signature Pangolin badging that surrounds a flat-surfaced, matte-finish Cargo Bed Cover. These features set-off the Brilliant Black Roof Rails, providing the perfect combination for that next trailing adventure.

As contrast to the 18-inch Diamond Cut Aluminum Alloy Wheels, the 4x4 Pangolin is designed with new Fender Flares in a modern two-tone finish.

Safety Is A Non-Negotiable Premium

Creating memorable moments has more to do with the journey than the destination. It's about the thrill of getting there, the people that you take with you, and the milestones that you achieve along the way. With the new BT-50, Mazda ensures that every drive is the safest and most reliable.

The BT-50 suite of Advanced Driver Assist Systems provides the most comprehensive safety features that make each trip stress-free, allowing you to go through each day with confidence and peace of mind. Whatever the road condition or unexpected driving situation, Mazda has got your back from start to finish.

- Adaptive Cruise Control
- Front & Rear Autonomous Emergency Braking
- Forward Collision Warning
- Blind Spot Monitoring
- Rear Cross Traffic Alert
- Rear Cross Traffic Brake
- Lane Departure Warning
- Pedal Misapplication Mitigation
- Auto High Beam Control
- Multi-Collision Brake
- Driver Attention Assist
- Front & Rear Parking Sensors

Driven by excellence and grounded in humanity, Mazda upholds its commitment in giving back to the community through its continued partnership with the Katala Foundation. Since 2020, Mazda and the Palawan-based organization have shared resources to ensure the protection of the endangered Philippine Pangolin.

Inspired by the dedication of the Katala Foundation, the Mazda BT-50 Pangolin Edition was born. Three years later, a vehicle donation was made to the non-profit organization, in recognition of its continued efforts in the preservation and monitoring of the endangered species.

Presently, the partnership between Mazda and the Katala Foundation has created a bolder iteration of the BT-50 4x4 Pangolin, designed with a rugged aesthetic and fitted with upgraded features for a more exciting ride, no matter the journey or terrain.

Worry-free ownership is the hallmark of the Mazda driving experience. We believe that ease of ownership is key to a long and lasting relationship with your Mazda.

That is why every brand-new Mazda vehicle includes FREE parts and labor for every scheduled Preventive Maintenance Service for five years, or up to 100,000km odometer distance, whichever comes first. If you happen to need assistance, you may avail of emergency towing and minor roadside repair support*, which comes with your brand-new Mazda. These unique benefits further enhance your Mazda's three-year, or 100,000km, New Vehicle Limited Warranty, Bumper-to-Bumper coverage.**

With over 13 full-service dealerships across the country ready to attend to your vehicle's needs, you can celebrate the joy and freedom of driving that only a Mazda can deliver.

Owning a Mazda is more than just driving with confidence and reassurance. A hassle-free ownership experience is the fulfillment of Mazda's promise to be your reliable partner in life's amazing journeys.
