

MAZDA3 AutoExe Pricelist

EXTERIOR

Part# MZ2510P00

Front Grille

₱59,519

Add boldness and sophistication with the AutoExe Front Grille's strong, gloss black finish. The horizontal insert emphasizes the Mazda3's planted stance, while an offset AutoExe logo completes the look. The Mazda emblem and i-ACTIVSENSE® hardware are carried over.

**Mazda emblem (BCKB51730A) and Bracket C (BCKB50721A) on the front grille must be replaced for models not equipped with i-ACTIVSENSE® Front Radar*

**Models equipped with i-ACTIVSENSE® Front Radar - A genuine retainer (B0M8-67-UC5 / B0M7-67-UC5) x 1 each is required for installation.*

Part# MZ1V3650P00

Carbon Door Mirror Cover

₱24,665

With its matte carbon-like finish, it accentuates the Mazda3's teardrop-shaped side view mirror. The AutoExe logo sticker near the base completes the look.

Part# MZ1V9770P00

Wheel Nut Set

₱9,908

Add a subtle, yet sophisticated feel to your Mazda's wheels with these small diameter wheel nuts. The heptagonal design uses a special adapter wrench that prevents wheel theft. Made of high-strength chrome vanadium steel that does not loosen even at high temperatures, it is finished in black with a knurled red aluminum end cap.

Part# MZND1V54A0P00

Door Stabilizer

₱17,888.64

This body reinforcement part fills the gap between the door and the vehicle body, allowing the closed door to act as a reinforcing bar. It helps reduce initial steering response delay and the need for corrective steering while improving the damping of body sway when driving over bumps. It can be installed without any modifications to the vehicle.

**Two sets are needed for compatible four-door models (front and rear)*

Part# MZB1V5420P00

Front Strut Tower Bar

₱19,027

Made of a one-piece steel oval shaft with a welded bracket, the Front Strut Tower Bar connects the left and right towers, increasing overall rigidity.

Part# MZ4500P00

Rear Floor Cross Bar

₱14,094

By positioning the Rear Floor Cross Bar on the floor, it produces the same effect as the Front Strut Tower Bar with no impact to the available space. The two-piece structure mounts in three places increasing the overall stiffness of the body shell.

INTAKE & EXHAUST

Part# MZ8Y60P00

Fastback Sports Muffler

₱115,684

Improve engine responsiveness and unlock the inherent sound with the Sports Muffler. Available exclusively for the Mazda3 Fastback, it has reduced back pressure loss thanks to a straight structure and an enlarged pipe diameter of 60.5mm. The aggressive four-piece outlet configuration has a diameter of 80mm.

**Must be installed with Fastback Sports Muffler Garnish*

Part# MZ2410P00

Fastback Sports Muffler Garnish

₱19,732

Made by AES, this satin black garnish allows the installation of the Fastback Sports Muffler and gives the Mazda3 a more aggressive form.

**Must be installed with Fastback Sports Muffler*

Part# MZ9610P00

Intake Suction Kit

₱11,275

Made of multi-layer silicon and fiber-reinforced plastic (FRP), the Intake Suction Kit eliminates the flexible joint meaning air flows smoother through the intake and into the engine. The construction itself withstands deformation even at high engine loads. As an added bonus, the Crimson color and an AutoExe logo adds an eye-catching accent to the engine bay.

Part# MZ2960P00

Bonnet Damper

₱18,498

Replacing the hood stay, two high-pressure gas-filled dampers smoothly assist the opening and closing of the hood. It bolts straight on thanks to a bracket that minimizes the load on the hood and mounting frame.

Part# MZ50P00

Battery Clamp

₱5,552

Designed to resemble the strut tower bar, complete with the bright red steel construction and logo plate, it adds a sense of playfulness and character to the engine compartment.
