

MAZDA CX-8 AutoExe Pricelist

SUSPENSION

Part# MZKF7850P00

Street Sports Suspension Kit

Sharper response. Refined control.

₱166,689.60

Designed for a more engaging driving experience, the AutoExe Street Sports Suspension Kit delivers sharper handling while maintaining everyday ride comfort. Its twin-tube dampers generate damping force from very low speeds, while Dynamic Kansei Engineering precisely controls body roll for responsive and predictable handling. The result is enhanced driving confidence without compromising comfort, with vehicle height adjustable by up to 25 mm for a sportier stance.

**Two genuine mounting rubbers (TK52-28-380C) are required separately*

Part# MZND1V54A0P00

Door Stabilizer

Sharper Handling. Greater Stability

₱17,888.64

This body reinforcement part fills the gap between the door and the vehicle body, allowing the closed door to act as a reinforcing bar. It helps reduce initial steering response delay and the need for corrective steering while improving the damping of body sway when driving over bumps. It can be installed without any modifications to the vehicle.

**Two sets are needed for compatible four-door SUV models (front and rear)*
