MAZDA

EXQUISITE BEAUTY

As a real-life expression of creativity, the Mazda CX-30 inspires us to be bold and unique. Motivated by Mazda's evolved KODO: Soul of Motion design philosophy, the CX-30's sensuous curves have been designed to ideal proportions, to bring out an innate calmness, and to simulate an instinctive attraction to beauty. The sense of vitality created by using light as a component of an art piece is the pinnacle of Mazda design.

"Our designers, modelers, and suppliers came together to think through every way in which the structure could be manipulated to create a deeper, more metallic look while still delivering optimal performance—even going so far as to revisit the absolute basics of plating." - Hiroaki Yokoi, Exterior Design

12-Speaker BOSE® Premium Sound System

BOSE® PREMIUM SOUND SYSTEM

THE NEW STANDARD OF IN-CAR AUDIO

By repositioning the main speakers under the cowl, Mazda engineers were able to design a new 12-Speaker BOSE® Sound System that delivers increased dynamic bass, superior clarity, and depth. A sound so rich, it satisfies even the most discerning audiophile.

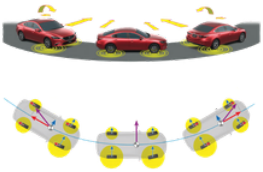

THE ESSENCE OF INTUITIVE DRIVING

The Jinba-Ittai spirit is alive in the Mazda CX-30. With its refined driving feel, you realize a safe, stress-free, and comfortable experience whenever you are behind the wheel. SKYACTIV-VEHICLE Architecture is the new Mazda-unique vehicle structure technology that makes all this possible, achieving balance and effortless driving harmony.

INTRODUCING
HYBRID TECHNOLOGY

An innovative evolution of hybrid car technology, Mazda Hybrid maximizes every bit of energy normally wasted during braking. It is now available on the new Mazda CX-30.

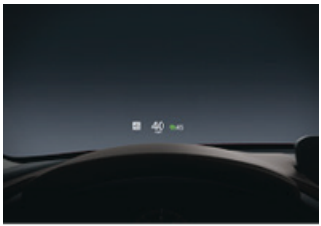

Instead of being unused, it is stored as electric energy in the battery, which the 5.1 kW (6.9PS) integrated electric motor uses to propel the vehicle independently from the internal combustion engine. Using the stored energy eases the engine's load, thus improving fuel economy and reducing carbon emissions.

JOY WITH PEACE OF MIND

By taking a human-centric approach to vehicle design and safety, we are able to consistently provide a safe and stress-free driving environment so that you can experience Effortless Joyful Driving. Mazda i-ACTIVSENSE® is a suite of technologies that helps prevent accidents and makes sure the vehicle is fully prepared in case they do happen.
